

# Binit Singh

Greater Noida, Uttar Pradesh | +91-8100218592 | binitkumarsingh24005@gmail.com

LinkedIn | GitHub | Portfolio

## Career Objective

Computer Science undergraduate specializing in full-stack web development and Java programming. Experienced in designing scalable RESTful APIs, modern user interfaces, and relational/NoSQL database architectures using the MERN stack, MySQL, and Docker. Proven ability to deliver production-ready software, analyze complex datasets, and implement secure authentication systems.

## Education

### Galgotias University

B.Tech Computer Science and Engineering

### Abbot Shishu Hall, Class XII (ICSE)

Senior Secondary Education (Class 12)

### Abbot Shishu Hall, Class X (ICSE)

Secondary Education (Class 10)

Greater Noida, Uttar Pradesh

(August 2023–May 2027)

Hooghly, WB

(2022 – 2023)

Hooghly, WB

(2020 – 2021)

## Technical Skills

- **Languages:** Java, JavaScript, TypeScript, C, PHP, SQL, Python
- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3
- **Backend:** Node.js, Express.js, REST APIs, WebSockets
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis
- **Developer Tools & DevOps:** Docker, Linux, Git, GitHub, Postman, Jest, CI/CD Basics, Vercel, Render
- **Libraries & AI:** Pandas, NumPy, LangChain, Mistral AI, Gemini API, Groq
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

## Work Experience

### EduSkills

Android Developer Virtual Intern

Virtual

(July 2025 – September 2025)

- Built and optimized native Android application interfaces using Java, XML layouts, and Android Studio, ensuring seamless lifecycle handling and UI responsiveness.
- Integrated RESTful backend endpoints to manage dynamic data flow, handling data serialization and error states.
- Streamlined application debugging and troubleshooting across diverse Android API levels to enhance overall app stability.

### CodSoft

Web Development Intern

Remote

(July 2025 – August 2025)

- Engineered and deployed responsive web interfaces using React.js, Tailwind CSS, and Node.js.
- Implemented modular RESTful APIs with input validation, error handling, and JWT-based authentication middleware.
- Collaborated on code reviews and version control via Git to maintain clean, reusable, and maintainable application code.

## Projects

### Resume Forge – Full-Stack Resume Builder | React.js, Node.js, Express.js, MongoDB, JWT

- Built an interactive resume generation platform featuring JWT-secured authentication, user session persistence, and end-to-end CRUD operations.
- Engineered real-time resume rendering with three customizable templates, automated client-side state caching, and client-side PDF export via html2canvas and jsPDF.
- Structured a modular component architecture on the frontend paired with centralized error handling and protected route middleware on the backend.

### IRCTC UTS Ticketing & Passenger Flow Analysis | Python, Pandas, MySQL, Data Visualization

- Processed and analyzed an unreserved railway ticketing dataset of 89,000+ records to identify peak congestion windows and booking trends.
- Designed an automated data cleaning and ingestion pipeline with Pandas, removing redundant records and populating normalized MySQL tables.
- Authored complex analytical SQL queries to evaluate route profitability, peak travel hours, and digital booking adoption rates.

---

## Certifications

- **Postman API Fundamentals Student Expert** – Postman (5 February 2025)
- **Google Play Academy – Store Listing Certificate** – Google Play (31 July 2025 – 31 July 2028)
- **GenAI Powered Data Analytics Job Simulation** – Forage (26 July 2025)
- **Cybersecurity Fundamentals** – IBM (7 January 2024)

---

## Extracurricular & Achievements

- **Lead Organizer – Code Astra:** Managed technical setup, participant onboarding, and real-time debugging for a 2-day university hackathon with hundreds of attendees (Apr 2025).
- **Problem Solving:** Solved Data Structures and Algorithms problems on LeetCode covering arrays, strings, dynamic programming, and graphs.
